

# March

2024

Hey, where's the Birthdays?

Well, we post this newsletter and calendar on the internet. The editors of the newsletter have decided that it is too dangerous to post birthdays because, with the advent of

artificial intelligence (AI), bots are crawling the internet and piecing together information for various reasons, some nefarious. So to keep your personal information from getting into the wrong hands, we will not be posting birthdays on any internet platform.
